CEO'S MESSAGE

Welcome to ASAS GROUP LTD.

At ASAS GROUP LTD, we are committed to transforming ideas into reality through engineering excellence, professional project management, and innovative infrastructure solutions.

Our organization operates with one clear objective: to deliver exceptional value to every client while contributing to the sustainable development of Somalia.

We understand that today's projects require more than technical expertise. They demand strategic planning, effective execution, risk management, environmental responsibility, and continuous improvement. That is why we integrate international standards, modern technologies, and highly skilled professionals into every stage of our operations.

Our diversified business portfolio enables us to provide integrated solutions across construction, infrastructure, renewable energy, water systems, agriculture, engineering consultancy, project management, and international trade.

Looking ahead, we remain focused on expanding our capabilities, strengthening partnerships, and delivering innovative solutions that create lasting economic and social impact.

Chief Executive Officer
ASAS GROUP LTD

COMPANY OVERVIEW

ASAS GROUP LTD is a diversified engineering, infrastructure, and development company headquartered in Somalia. The company provides comprehensive solutions across multiple sectors, including construction, infrastructure development, engineering consultancy, renewable energy, water management, agriculture, project management, and international trade.

With a commitment to quality, innovation, and sustainability, ASAS GROUP LTD delivers integrated solutions that support national development while meeting the evolving needs of public and private sector clients.

Our multidisciplinary approach allows us to manage projects from concept development and feasibility studies through engineering design, procurement, construction, commissioning, and long-term operational support.

ABOUT ASAS GROUP LTD

ASAS GROUP LTD is a forward-thinking multidisciplinary company dedicated to delivering innovative engineering and infrastructure solutions that contribute to sustainable development across Somalia.

Our expertise spans a broad range of industries, enabling us to provide integrated services tailored to the unique requirements of each client and project. From large-scale infrastructure and transportation projects to renewable energy, water solutions, agricultural development, and engineering consultancy, we deliver practical solutions that create measurable value.

Our team consists of experienced professionals committed to excellence, safety, quality, and continuous improvement.

CORE VALUES

INTEGRITY

Honesty, transparency, and ethical responsibility.

EXCELLENCE

High standards of quality and professionalism.

INNOVATION

Modern technology and continuous improvement.

ACCOUNTABILITY

Responsibility for commitments and outcomes.

SUSTAINABILITY

Balance economic growth with social responsibility.

CUSTOMER FOCUS

Reliable and value-driven client partnerships.

SAFETY

Strong health, safety, and environmental culture.

COLLABORATION

Teamwork, partnerships, and open communication.

OUR BUSINESS PHILOSOPHY

At ASAS GROUP LTD, our philosophy is built on the belief that every project should create lasting value for our clients, communities, and future generations. We are committed to delivering integrated solutions that combine technical excellence, innovation, sustainability, and operational efficiency.

We believe that successful projects are not measured solely by their completion but by the positive impact they create on economic development, infrastructure resilience, environmental sustainability, and community well-being.

Our approach emphasizes collaboration, transparency, and continuous improvement, ensuring that every project is executed with professionalism, accountability, and the highest ethical standards.

WHY CHOOSE US

Choosing ASAS GROUP LTD means partnering with a company committed to delivering exceptional quality, innovative solutions, and long-term value.

- Integrated Solutions
- Technical Excellence
- Experienced Professionals
- Quality Assurance
- Commitment to Safety
- Sustainable Development
- Customer-Centered Approach
- Reliable Project Delivery

OUR BUSINESS SECTORS

GENERAL CONTRACTING

ASAS GROUP LTD provides comprehensive general contracting services for public and private sector projects, delivering turnkey construction solutions from concept to completion.

Our capabilities include project planning, procurement, construction management, quality control, commissioning, and post-construction support. We manage projects of varying complexity while maintaining strict adherence to quality, safety, environmental, and regulatory standards.

SCOPE OF SERVICES

- Commercial Buildings
- Residential Developments
- Industrial Facilities
- Institutional Buildings
- Government Projects
- Civil Works
- Renovation & Rehabilitation
- Design & Build Contracts
- Turnkey Construction

International standards • Quality control • Safety focused • Sustainable delivery

OUR BUSINESS SECTORS

INFRASTRUCTURE DEVELOPMENT

Infrastructure plays a vital role in economic growth and national development. ASAS GROUP LTD delivers modern infrastructure solutions that improve transportation, utilities, public services, and urban development.

We collaborate with governments, development agencies, investors, and private organizations to design and construct infrastructure that meets international engineering standards. Every project is designed with sustainability, resilience, and long-term operational performance in mind.

INFRASTRUCTURE CAPABILITIES

- Urban Infrastructure
- Industrial Infrastructure
- Utility Networks
- Public Facilities
- Drainage Systems
- Stormwater Management
- Site Development
- Earthworks
- Civil Engineering Works

International standards • Quality control • Safety focused • Sustainable delivery

ROADS & HIGHWAYS

Efficient transportation infrastructure is essential for economic development and regional connectivity. ASAS GROUP LTD specializes in planning, designing, constructing, upgrading, and maintaining road infrastructure that enhances mobility, trade, and accessibility.

Our road projects prioritize durability, safety, environmental sustainability, and long-term performance.

SERVICES INCLUDE

- Highway Construction
- Urban Roads
- Rural Roads
- Road Rehabilitation
- Asphalt Paving
- Concrete Roads
- Road Drainage Systems
- Road Safety Improvements
- Traffic Infrastructure

International standards • Quality control • Safety focused • Sustainable delivery

OUR BUSINESS SECTORS

BRIDGES & CIVIL STRUCTURES

Bridges and civil structures are critical components of national infrastructure. ASAS GROUP LTD delivers innovative bridge engineering solutions designed to improve connectivity while ensuring structural integrity and long-term reliability.

Every structure is engineered to meet international design codes and withstand demanding environmental conditions.

OUR EXPERTISE

- Highway Bridges
- Pedestrian Bridges
- Flyovers
- Culverts
- Retaining Structures
- Structural Rehabilitation
- Foundation Engineering
- Concrete Structures
- Steel Structures

International standards • Quality control • Safety focused • Sustainable delivery

OUR BUSINESS SECTORS

AIRPORTS DEVELOPMENT

Modern airports are essential gateways for economic growth, tourism, and international connectivity. ASAS GROUP LTD provides specialized services in airport infrastructure development, supporting aviation projects from planning and engineering through construction and operational readiness.

Our solutions prioritize operational efficiency, passenger experience, and compliance with international aviation standards.

SERVICES

- Airport Terminals
- Runways
- Taxiways
- Aprons
- Passenger Facilities
- Cargo Facilities
- Airport Utilities
- Airside Infrastructure
- Landside Development

QUALITY **SAFETY** **VALUE**

International standards • Quality control • Safety focused • Sustainable delivery

OUR BUSINESS SECTORS

PORTS & MARINE INFRASTRUCTURE

Ports serve as strategic economic hubs that facilitate international trade and regional development. ASAS GROUP LTD delivers comprehensive marine engineering and port infrastructure solutions that enhance logistics, cargo handling, and maritime operations.

We apply modern engineering techniques to deliver resilient and sustainable marine infrastructure capable of supporting long-term economic growth.

AREAS OF EXPERTISE

- Commercial Ports
- Cargo Terminals
- Container Facilities
- Marine Structures
- Coastal Protection
- Jetties
- Quay Walls
- Port Utilities
- Marine Civil Engineering

International standards • Quality control • Safety focused • Sustainable delivery

RENEWABLE ENERGY

ASAS GROUP LTD is committed to supporting Somalia's transition toward clean, reliable, and sustainable energy solutions. We develop renewable energy infrastructure that improves energy access, reduces environmental impact, and contributes to long-term economic growth.

By integrating modern technologies and international engineering standards, we provide customized renewable energy solutions for government institutions, commercial facilities, industrial operations, and rural communities.

RENEWABLE ENERGY SERVICES

- Solar Power Plants
- Solar Mini-Grids
- Hybrid Energy Solutions
- Battery Energy Storage Systems
- Commercial & Industrial Solar Systems
- Solar Water Pumping Systems
- Energy Efficiency Solutions
- Electrical Infrastructure
- Operation & Maintenance Services

International standards • Quality control • Safety focused • Sustainable delivery

OUR BUSINESS SECTORS

WATER DESALINATION

Access to clean and safe water is fundamental to sustainable development. ASAS GROUP LTD designs, constructs, and manages advanced water desalination systems that transform seawater and saline groundwater into potable water for communities, industries, and commercial facilities.

Every desalination project is designed to maximize efficiency, minimize operational costs, and ensure long-term sustainability while complying with international water quality standards.

OUR SERVICES

- Reverse Osmosis Plants
- Seawater Desalination
- Brackish Water Treatment
- Water Purification Plants
- Water Storage Systems
- Pumping Stations
- Distribution Networks
- Plant Installation &
- Operation & Maintenance

International standards • Quality control • Safety focused • Sustainable delivery

OUR BUSINESS SECTORS

WATER WELLS

Water is one of the most valuable resources for communities, agriculture, and economic development. ASAS GROUP LTD provides comprehensive groundwater development solutions that improve access to clean and reliable water across urban and rural areas.

Our water projects contribute to improved public health, agricultural productivity, and sustainable livelihoods by ensuring long-term access to safe and dependable water resources.

SCOPE OF SERVICES

- Hydrogeological Surveys
- Borehole Drilling
- Water Well Construction
- Solar Water Pump Systems
- Submersible Pump
- Water Storage Tanks
- Pipeline Installation
- Water Quality Testing
- Maintenance &

International standards • Quality control • Safety focused • Sustainable delivery

OUR BUSINESS SECTORS

AGRICULTURAL DEVELOPMENT

Agriculture is a cornerstone of Somalia's economy and food security. ASAS GROUP LTD supports agricultural development through integrated solutions that improve productivity, strengthen rural economies, and promote sustainable land use.

We promote modern farming techniques, efficient resource management, climate-smart agriculture, and environmentally responsible practices to ensure long-term agricultural resilience.

AREAS OF EXPERTISE

- Farm Development
- Agricultural Infrastructure
- Land Preparation
- Greenhouse Construction
- Mechanized Farming
- Soil Improvement
- Crop Production Support
- Post-Harvest Infrastructure
- Agricultural Value Chain

International standards • Quality control • Safety focused • Sustainable delivery

IRRIGATION SYSTEMS

Efficient irrigation is essential for maximizing agricultural productivity and ensuring sustainable water use. ASAS GROUP LTD designs and implements advanced irrigation systems that optimize crop performance while conserving water resources.

Our irrigation systems help increase crop yields, reduce water consumption, improve operational efficiency, and support sustainable agricultural development.

IRRIGATION SOLUTIONS

- Drip Irrigation Systems
- Sprinkler Irrigation
- Center Pivot Irrigation
- Surface Irrigation
- Water Pumping Systems
- Irrigation Reservoirs
- Pipeline Networks
- Irrigation Automation
- Maintenance & Technical

International standards • Quality control • Safety focused • Sustainable delivery

OUR BUSINESS SECTORS

IMPORT & EXPORT

ASAS GROUP LTD facilitates international trade by providing reliable import and export services that connect Somalia with regional and global markets.

Our trade operations focus on efficient procurement, logistics coordination, customs compliance, and supply chain management to ensure timely and cost-effective delivery of goods.

SERVICES

- International Procurement
- Import Services
- Export Services
- Customs Documentation
- Freight Coordination
- Shipping Management
- Supply Chain Solutions
- Vendor Management
- Trade Advisory

International standards • Quality control • Safety focused • Sustainable delivery

OUR BUSINESS SECTORS

GENERAL TRADING

ASAS GROUP LTD operates as a diversified trading company supplying high-quality products and commercial solutions across multiple industries.

Our extensive supplier network and strategic partnerships enable us to source, distribute, and deliver products that meet international quality standards while supporting local market needs.

TRADING CATEGORIES

- Construction Materials
- Industrial Equipment
- Heavy Machinery
- Electrical Supplies
- Plumbing Materials
- Agricultural Equipment
- Safety Equipment
- Office Supplies
- General Consumer

International standards • Quality control • Safety focused • Sustainable delivery

ENGINEERING CONSULTANCY

ASAS GROUP LTD provides comprehensive engineering consultancy services that transform ideas into practical, efficient, and sustainable infrastructure solutions. Our multidisciplinary team of engineers, planners, architects, and technical specialists delivers professional advisory services throughout every stage of the project lifecycle.

From feasibility studies to detailed engineering design and construction supervision, we support our clients with innovative solutions that reduce risk, optimize costs, and maximize long-term project value.

CONSULTANCY SERVICES

- Feasibility Studies
- Engineering Design
- Master Planning
- Structural Engineering
- Civil Engineering
- Infrastructure Planning
- Environmental Impact
- Technical Due Diligence
- Tender Documentation
- Contract Administration
- Construction Supervision
- Technical Advisory

International standards • Quality control • Safety focused • Sustainable delivery

OUR BUSINESS SECTORS

PROJECT MANAGEMENT

Successful projects require more than technical expertise—they require strong leadership, strategic planning, effective coordination, and disciplined execution.

ASAS GROUP LTD provides professional project management services that ensure every project is delivered safely, on time, within budget, and according to the highest quality standards.

PROJECT MANAGEMENT SERVICES

- Project Planning
- Scheduling & Programming
- Cost Management
- Budget Control
- Procurement Management
- Contract Management
- Risk Management
- Quality Management
- Stakeholder Coordination
- Construction Monitoring
- Project Reporting
- Project Close-Out

International standards • Quality control • Safety focused • Sustainable delivery

HEALTH, SAFETY & ENVIRONMENT

At ASAS GROUP LTD, quality, health, safety, and environmental responsibility are fundamental to every project we undertake. Our QHSE management system is designed to ensure operational excellence while protecting employees, clients, communities, and the environment.

QUALITY COMMITMENT

- Continuous Quality Improvement
- International Standards
- Inspection & Testing
- Quality Control
- Client Satisfaction

HEALTH & SAFETY

- Zero Harm Culture
- Risk Assessment
- Safe Work Procedures
- Emergency Planning
- Safety Training

ENVIRONMENTAL RESPONSIBILITY

- Environmental Protection
- Waste Management
- Pollution Prevention
- Resource Conservation
- Environmental Compliance

SUSTAINABILITY

ASAS GROUP LTD believes that sustainable development extends beyond infrastructure. It encompasses environmental stewardship, social responsibility, economic growth, and long-term value creation.

We integrate sustainability into every aspect of our operations by delivering projects that minimize environmental impact while maximizing benefits for communities and future generations.

Sustainability priorities include climate resilience, renewable energy, water conservation, sustainable construction, green infrastructure, resource efficiency, and environmental protection.

- CLIMATE RESILIENCE
- RENEWABLE ENERGY
- WATER CONSERVATION
- GREEN INFRASTRUCTURE
- RESOURCE EFFICIENCY
- ENVIRONMENTAL PROTECTION

CORPORATE SOCIAL RESPONSIBILITY

ASAS GROUP LTD believes that corporate social responsibility is an important part of sustainable business. Our CSR initiatives focus on creating meaningful social impact through community-centered development.

Our CSR priorities include education support, community development, youth employment, technical training, women's empowerment, healthcare support, environmental awareness, and humanitarian assistance.

We strive to become a responsible corporate citizen by creating shared value for our clients, employees, communities, and stakeholders.

- EDUCATION SUPPORT
- COMMUNITY DEVELOPMENT
- YOUTH EMPLOYMENT
- TECHNICAL TRAINING
- WOMEN'S EMPOWERMENT
- HEALTHCARE SUPPORT
- ENVIRONMENTAL AWARENESS
- HUMANITARIAN ASSISTANCE

OUR COMPETITIVE ADVANTAGES

ASAS GROUP LTD distinguishes itself through technical excellence, operational efficiency, and an unwavering commitment to delivering value-driven solutions.

Why clients choose ASAS GROUP LTD: multidisciplinary expertise, one-stop project lifecycle solutions, experienced professionals, international standards, client-centered approach, innovation, sustainability, and integrity.

These strengths enable ASAS GROUP LTD to deliver reliable, customized, and sustainable solutions that meet each client's unique objectives and expectations.

- EXPERTISE
- ONE-STOP SOLUTIONS
- EXPERIENCE
- INTERNATIONAL STANDARDS
- CLIENT-CENTERED
- INNOVATION
- SUSTAINABILITY
- INTEGRITY

FUTURE VISION

ASAS GROUP LTD is committed to becoming one of the leading engineering, infrastructure, and development companies in Africa.

Over the coming years, we aim to strengthen our position by expanding our expertise, investing in innovation, developing strategic partnerships, and delivering transformational projects that contribute to sustainable economic growth.

Strategic priorities include expanding across East Africa, developing smart infrastructure solutions, investing in renewable energy projects, strengthening water infrastructure, supporting agricultural transformation, adopting digital engineering technologies, enhancing project delivery excellence, developing local talent, and fostering strategic international partnerships.

OUR STRATEGIC FOCUS

- REGIONAL PRESENCE
- PARTNERSHIPS
- RENEWABLE ENERGY
- WATER INFRASTRUCTURE
- CONSTRUCTION & INFRASTRUCTURE
- WATER SOLUTIONS
- AGRICULTURE
- DIGITAL ENGINEERING
- LOCAL TALENT
- SMART INFRASTRUCTURE
- ENGINEERING & CONSULTING
